## Note to Contributors

**Submission of articles.** Manuscripts should be sent (in triplicate) directly to the relevant Section Editor.

*Types of papers* published in the journal: papers reporting results of original research – review articles – short communications – technical papers – editorials – book reviews – news and announcements.

### Electronic Submission

Some manuscripts are able to be submitted electronically, please check on: <http://www.authorgateway.com/journal/pub/503302>. If electronic submission is possible, authors can upload their article as a LaTeX, Microsoft? (MS) Word?, WordPerfect?, PostScript or Adobe? Acrobat? PDF document via the "Author Gateway" page of this journal (<http://authors.elsevier.com>), where you will also find a detailed description on its use. The system generates an Adobe Acrobat PDF version of the article which is used for the reviewing process. It is crucial that all graphical and tabular elements be placed within the text, so that the file is suitable for reviewing. Authors, Reviewers and Editors send and receive all correspondence by e-mail and no paper correspondence is necessary. Note: manuscripts submitted are converted into PDF for the review process but may need to be edited after acceptance to follow journal standards. For this an "editable" file format is necessary. See the section on "Electronic format requirements for accepted articles" and the further general instructions on how to prepare your article in the Guide for Authors advertised below.

**Authors in Japan please note:** Upon request, Elsevier Japan will provide authors with a list of people who can check and improve the English of their paper (*before submission*). Please contact our Tokyo office: Elsevier K.K., 1-9-15 Higashi-Azabu, Minato-ku, Tokyo 106-0044; Tel. (03)-5561-5032; Fax (03)-5561-5045.

*All contributions will be carefully refereed for international relevance and quality. Submission of an article is understood to imply that the article is original and unpublished and is not being considered for publication elsewhere.*

### Author enquiries

Authors can keep a track on the progress of their accepted article, and set up email alerts informing them of changes to their manuscript's status, by using the "Track a Paper" feature of Elsevier's Author Gateway (<http://authors.elsevier.com>).

For specific enquiries on the preparation of electronic artwork, consult <http://authors.elsevier.com>

Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided when an article is accepted for publication.
